

Mini-Project 2

Frequent Asked Questions

Q1: Does the report has to be written in Portuguese?

A1: NO. See the “evaluation criteria”: Quality of the report [in Portuguese or in English].

Q2: Does the transducer **rich2text** accept as input the word *horas*?

A2: Yes. Examples: (1) *dez horas e um quarto* is converted to *dez horas e quinze*, (2) *dezoito horas e tres quartos* is converted to *dezoito horas e quarenta e cinco*.

Since it was said a different thin before, it is also accepted: (1) *dez horas e um quarto* is converted to *dez e quinze*, (2) *dezoito horas e tres quartos* is converted to *dezoito e quarenta e cinco*.

Q3: Does the transducer **rich2num** accept as input the word *horas*?

A3: Yes. Examples: (1) *dez horas* is converted to *10:00*, (2) *dez horas e meia* is converted to *10:30*, (3) *dez horas e quinze* and *dez horas e um quarto* are converted to *10:15*.

Q4:The transducer **horas** can accept wrong input as *um horas* ou "*doze hora*"?

A4: No, both expressions should not be accepted.

Q5: The transdutor **rich2text** should also accept the valid inputs of transducers **text2num** and **lazy2num**?

A5: No, **rich2text** should only accept inputs with the words *meia*, *quarto* or *quartos*
